

# Email, sent 2024-06-24

Hi,

We look forward to meeting you in person during the MADE data engineering task. Before the task, please read the following information:

1. You can find your time slot and room assignment here:

<https://docs.google.com/spreadsheets/d/1wEGGr8XOPOdndzurSuIzY50Be642UGVgEEHS5NdvqyQ/edit?usp=sharing>. Please wait in front of the room at the time indicated, we will call you in. Both rooms are in the “Blue CS-Building”, Martensstraße 3 in Erlangen, you can find details about the room location linked in the sheet as well. The task should take about 45 minutes.

2. You will need a CIP account to log in, if you do not have one yet you can create it here:

<https://account.cip.cs.fau.de/>. Please take a moment to do this now, as it can take a while to be activated.

3. If you can not make it to your assigned slot or are otherwise unable to attend, please let us know by email and we can work out a replacement task.

If you have indicated that we are allowed to use your data for research purposes, thank you! If not, we will, of course, not use your data, and you can ignore the following information.

Attached to this email, you will find a handout called “Informed Consent” with information about the experiment and how we use the data we gather. Please read it before the experiment and if you have any questions, let us know.

See you soon,

Philip & Georg
